Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 39, drawn to a method of screening an agent for the ability to inhibit an activity of TTP.

Group II, claim(s) 40, drawn to a method of screening an agent for the ability to compete with TTP for binding to the ARE of mRNA.

Group III, claim(s) 41-52, drawn to a method of stimulating the degradation of an mRNA molecule having an AU-rich element (ARE).

Group IV, claim(s) 53-61, drawn to a method of identifying a compound that modulates the activity of TTP or a TTP-like polypeptide.

Group V, claim(s) 62 and 63, drawn to a method of identifying a compound that mimics the activity of TTP or a TTP-like polypeptide.

Group VI, claim(s) 64, drawn to a polypeptide consisting essentially of a TTP zinc finger domain or a TTP-like zinc finger domain.

4. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventions are linked through the common technical feature of TTP, however, TTP was known in the art prior to the filing of the subject application. In support of this position attention is directed to WO 97/42820, which teaches at length of TTP. Accordingly, a special technical feature does not link the inventions such that they have unity of invention as set forth under PCT Rule 13.2.

5. A telephone call was made to Shari J. Corin, Ph.D., Reg. No. 46,243, on 22 July 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Numbering of Claims

8. It is noted that the subject application was filed with two claims numbered "43." Accordingly, the claims have been renumbered, starting with the second occurrence of said "43." Applicant is urged to consider filing an amendment whereby the dependencies of the claims is also corrected.

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bradley L. Sisson whose telephone number is 703-308-3978. The examiner can normally be reached on Monday through Thursday from 6:30 AM to 5 PM.
